Arthur Duboks

Full Stack Developer | JavaScript, React, Next.js

@ codebyarthur@gmail.com   linkedin.com/in/arthur-duboks   www.codebyarthur.com   Montreal, Canada

SUMMARY

Skilled in JavaScript, React, Express, and MongoDB, I also develop full-stack apps using Next.js, and Firebase. My marketing expertise has led to a 300% increase in SEO traffic. I focus on enhancing business profitability through innovative software solutions.

EXPERIENCE

L2 Technical Support Engineer (Contract)

Debutify   01/2024 - Present   Montreal, Canada

Responsible for managing and resolving L2 tickets.

- Manage and resolve L2 support tickets.
- Troubleshoot Shopify Liquid, JavaScript, and CSS bugs.
- Work closely with the Level L3 team for back-end-related bugs.
- Achieved a target resolution rate of 80% for Level 2 support tickets.

E-Commerce Manager

Guillemot Inc.   02/2022 - Present   Montreal, Canada

Responsible for managing the e-commerce operations of Thrustmaster and Hercules DJ USA.

- Enhanced website CRO and user engagement with UX/UI data-driven improvements.
- Created and optimized SEO content, leading to a 300% increase in organic SEO.
- Achieved 10X ROAS with tailored campaigns and scaled to 1M in 6 months as an in-house PPC Manager.

L1 Technical Support Engineer (Contract)

Debutify   01/2022 - Present   Montreal, Canada

Responsible for managing and resolving L1 level issues.

- Optimized Debutify theme and UX based on user requests via Intercom.
- Improved Debutify theme and Shopify front-end using HTML, CSS, and JavaScript.
- Enhanced CX with L2 team collaboration; escalated complex issues following DevOps best practices.

STRENGTHS

Problem-Solving
Engineered a tailored OpenAI API solution to handle specific queries, enhancing the efficiency and accuracy of responses in my personal project.

Collaboration
Collaborated with cross-functional teams to enhance UX in global projects.

Adaptability
Quickly adapted to emerging technologies in personal full stack projects. Staying up-to-date with industry trends.

SKILLS

HTML5   CSS3   Tailwind CSS   JavaScript ES6+   TypeScript   React   Next.js   Redux   Node.js   Express   MongoDB   Firebase   Authentication   Jest   Git   MVC Architecture   Figma   SEO   Stripe

PASSIONS

Programming
Passionate about programming, I code almost daily to sharpen my skills, currently focusing on leveling up in React Native and TypeScript. I also attend monthly React and Flutter meetings @Meetup.
